Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

In response to the amendment filled on 12/16/2005, all the amendment has been entered.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1-13, 17-18 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Luke et al (US 5483603) in view of Masami (JP 05-299794).

With respect to the claims 1-13, 17-18 and 23 the rejections are respectfully maintained and incorporated herein with reference as set forth in prior office action dated 9/19/2005.

4. Claims 14-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Luke et al (US 5483603) in view of Masami (JP 05-299794) as applied to claim 13 above, and further in view of Brecher et al (US 5544256).

With respect to the claims 14-16 the rejections are respectfully maintained and incorporated herein with reference as set forth in prior office action dated 9/19/2005.

Response to Arguments

5. Applicant's arguments filed 12/16/2005 have been fully considered but they are not persuasive. Applicant agrees that the references are capable of detecting the oxide. Applicant argues that the reference fails to suggest determining whether an oxidized metal is present on a conductor, as claimed in claim 1. Examiner disagrees with the applicant. In this case, With respect to claim 1, Luke discloses determining whether the presence of oxide (see col. 4. lines 25-38 and col. 5, lines 20-22 the distinguishing between the wire "oxide" and substrate) as claimed. And, reference Masami teaches, inspection of the oxidized metal marking (see col. constitution, in that a camera is use to determine the presence of the oxide metal on the PCB) as claimed.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
